Ladysmith Under Fire
Lorenza-Marquez, Nov. 17.—[Special Cablegram]—Advices of a reliable nature say that the Boers have subjected Ladysmith to a severe bombardment from guns which encircled the whole town. Shells were rained on the beleaguered city from all points of the compass.

Big Gun Saved the Day
Pretoria, Nov. 17.—[Special Cable-gram]—The Boer general reporting from the camp at Elandsbaag November 9, says:

"Ladysmith is completely encircled by our forces. Our second gun has been successfully mounted on Bulwer Hill. Firing of the heavy guns from the British camp commenced this morning, but with no loss on our side. Gen. Botha has telegraphed from the south that the British batteries have opened a heavy fire which he had met with his big guns and he was continuously dropping shells into the works around Ladysmith. The Pretoria force was in a tight place, having taken a position commanded by the British fire, which was so hot that the position became untenable. The big gun, however, saved the day."

Renewed Fighting at Ladysmith
Estcourt, Nov. 17.—[Special Cable-gram]—Renewed fighting at Ladysmith is reported by native runners as taking place Nov. 10th, is said to have been renewed Tuesday.

Still Another British Reverse.

London, Nov. 17.—[Special Cable-gram]—An official dispatch from Cape Town says that Gen. Hildyard reports from Estcourt that thirty-nine of the Dublin Fusiliers who were on the armored train are missing together with Capt. Haldane of the Gordon Highlanders. He gives the names of the known casualties. He says he sent the mounted force to cover the British retreat. Up to that time an even hundred were missing.

Gen. Buller cables that over one hundred British soldiers and officers are missing as a result of the disaster to an armored train north of Estcourt.

Cape Town, Nov. 17.—[Special Cable-gram]—Natal dispatches seem to indicate that two armored trains are missing near Estcourt. The second is supposed to have had twenty-five men aboard.

HITS BRITISH PUBLIC HARD

Third Notable Reverse to the Red Coats at Estcourt

London, Nov. 17.—[Special Cable-gram]—The disaster to the armored train at Estcourt, constituting the third notable reverse to the British arms, hits Englishmen in a sore place and public feeling is split between the bravery displayed by the British troops and im-

patience at the foolish boldness which brought about their last defeat. Englishmen think it incredible that any commander should permit an armored train to proceed through a country infested with the enemy.

HEROISM OF WINSTON CHURCHILL.

He Cheers On British Troops and Is Captured By the Boers.

Estcourt, Natal, Nov. 17.—An armored train ran off the track north of Frere station. The Boers shelled the train. Winston Churchill, correspondent of the London Daily Mail (son of Lady Randolph Churchill, formerly Miss Jerome of New York), behaved with great gallantry in carrying the wounded off the field under a heavy fire.

He called for volunteers to remove the broken trunk, and worked under the fire of three guns. The engine driver who had been wounded in the head, began to retire, when Churchill called to

WINSTON CHURCHILL.

him to come back, saying, "a man is never hit twice." The driver brought back the engine, and Churchill carried the wounded to the train. After he had placed all the wounded on the cars he grabbed his rifle and rushed toward the enemy.

No details have been received. Churchill, Captains Haldane and Wileys, with fifteen of the wounded and 150 troopers are missing. No confirmation of the report of General Joubert being killed in action near Ladysmith has yet been received.

WERE LURED INTO AMBUSH Two Scouting Armored Trains Taken From the British

Estcourt, Natal, Nov. 17.—An armored train running from here north along the railroad was ambushed by a strong force of Boers near Frere station, between Ennersdale and Chieveley, and a severe blow was inflicted on the British force. As far as can be ascertained three men were killed, twenty-six wounded, and the number of prisoners and missing is variously estimated from fifty to 150.

Nothing was seen of the enemy on the outward trip, but before the train returned the Boers had damaged the track in the rear in such a manner that the cars were overturned. The Boers had placed guns in position on this exact spot, and opened fire at close range the moment the cars toppled over.

A naval seven-pounder, the only gun aboard the train, responded, but only fired three shots, when the enemy's heavy artillery shattered it.

The Dublin fusiliers and the Durban infantry, who manned the train, formed in skirmishing order and maintained a rifle fire, but were opposed by an overwhelming force, which poured shell and rifle volleys into them.

The British officers showed coolness, and they were ably seconded by Winston Churchill, correspondent of the London Daily Mail (son of Lady Randolph Churchill, formerly Miss Jerome of New York), who behaved with great gallantry in carrying the wounded off the field under a heavy fire.

Churchill is said to have acted bravely, and all survivors praise him. Capt. Haldane is reported to be a prisoner. Capt. Wiley arrived here wounded. Col. Long and Major Chichester visited the hospital and found fifteen wounded men doing well. One of the wounded had to have an arm amputated.

The first news of the disaster to the armored train was brought to Estcourt by the engine and tender, which returned alone and were battered with bullets.

Seven men of the Durban infantry and fifteen of the Dublin fusiliers have returned here.

Say Joubert Is Alive.

London, Nov. 17.—Some one in Durban or Pietermaritzburg dreamed that Gen. Joubert had been killed in several different ways. The afternoon papers gloated over the report, but all morning papers discredited the story. The war office says Gen. Joubert was reported as well several days after the date of his reported death.

Breckenridge or Owens

Owenton, Ky., Nov. 17.—It is intimated that under the prevailing political conditions in the Seventh Kentucky district, either Colonel Breckenridge or Mr. Owens, his former successful antagonist, in turn displaced by Mr. Settle, may be chosen successor to the latter, who died last night of nervous prostration.

BOND OFFER ONLY TO TEST THE MARKET

MONEY STRINGENCY MORE APPARENT THAN REAL.

Bishops of the M. E. Church Offer Colored Chaplains For Duty in the Philippines—Senator Vest Will Support President McKinley's Expansion Policy.

Washington, D. C., Nov. 17.—Estimates of treasury officials regarding the outcome of the secretary's offer to purchase bonds vary widely as to the extent to which the offer is liable to be accepted by the bondholders. Many officials believe the secretary's offer is largely, if not entirely, a test of the market, being intended to show that the money stringency is more apparent than real. This, of course, would be demonstrated if the offer is not accepted to any considerable extent.

It remains open only until Nov. 30, or two weeks, so that within that time it will be shown whether the demand for money in Wall street is so great as to justify a fractional loss on government

JANESVILLE SECURES THE GARMENT FACTORY

Richardson Building Has Been Leased to the Chicago Firm Which Will Move Its Business to This City—Will Have Fifty to Sixty Hands.

Janesville secures the garment factory.

Messrs Page and Thomas telephoned from Chicago today that they will be in Janesville tomorrow to close necessary leases and contracts for the transfer of the factory from Chicago to Janesville.

The Richardson building at the northeast corner of North Main street and Pence Court has been leased and will be used as the factory building after being thoroughly remodeled. The building is a two story brick structure and of late has been occupied by Alfred N. Jones as a leaf tobacco factory.

D. W. Watt, who has been circulating a petition for the raising of a bonus, has succeeded in raising \$1000 among

bonds, and also the loss of future interest, for it is easy to see that if the government makes by the transaction an average of something over \$2,000,000 that profit must necessarily come out of the bondholders.

It seems to be generally accepted by financial experts that a bond purchase by the government will not particularly help the banks, whose bonds are largely deposited to secure circulation or to cover government deposits of cash.

Colored Men For Chaplains

The bishops of the Methodist church who are now in Washington, have notified the president that they can furnish all the chaplains needed for service with the army in the Philippines. Bishop Arnett of the African Methodist church was the first to call at the White House on this errand, and he told the president that if the white preachers were afraid to go he was sure the colored preachers were not and offered the services of any number of colored men for chaplains.

Vest Will Support Expansion

The ablest and most influential democrats in the United States senate will support the expansion policy of the administration at the approaching session, and leave the "antis" very weak. Mr. Vest of Missouri, who is the ablest of the "antis," is in poor health, so ill that it is said to be doubtful whether he will be able to resume his seat this session; but his death or disability has been predicted for so long that people have ceased to believe it. Last spring the senator was so far gone that his political heirs began to administer upon his estate, which made him so indignant that he got well again and defied them. Mr. Vest says he has spent a pleasant and comfortable summer and is much improved in health.

Col. Henderson In Washington.

Col. Henderson arrived in Washington today and the people are already hanging around his hotel to get an early word with him. He has saved himself a good deal of annoyance by announcing his clerical staff, and has thus turned the attention of a small number of applicants in another direction. But his ordeal will be with the members of the house, especially new members who are ambitious to serve their country in prominent positions and have been studying the list of committees with great anxiety to see where they can make themselves the most useful.

Sheldon, author of "In His Steps" and other books, is pastor, adopted a new covenant tonight, abandoning entirely the apostles' creed. The new covenant does not differ materially from that used by all the Congregational churches except in the dropping of the old apostles' creed.

Gen. Bragg Endorses the President's Policy in the Filipino War—Plankinton's Enormous Fees—Meteor Falls at Baraboo—State News and Notes.

Madison, Wis., Nov. 17.—Thirteen of the University students who capped the climax of their night parade on the night of Oct. 30 by breaking into the ladies' hall and stealing garments from the laundry, have been suspended from the institution. The committee of professors which has been investigating the matter the last two weeks reported at a meeting of the faculty yesterday afternoon, that five students had been indefinitely suspended, and eight suspended for the college year, or a shorter time. They refused to give out the names.

The president of the Women's Self-Government association announced last night that the action of the faculty

JANESVILLE SECURES THE GARMENT FACTORY

Janesville secures the garment factory.

The business men, Messrs. Page and Thomas will accept this amount.

The new factory will contain the latest of machinery used in the manufacture of ladies' jackets, cloaks and all outer garments.

In the neighborhood of sixty hands will be employed at the start, the greater portion being girls.

Electricity will be used for power. The city is to be congratulated on securing this new industry.

Fred J. Tucker of Chicago, son-in-law of Capt. W. T. VarKirk, has taken a most active part in securing this industry for Janesville, and to him much of the credit belongs.

GEN. BRAGG ON FILIPINO WAR

No Man of Sound Sense is in Favor of Quitting Now

Fond du Lac, Wis., Nov. 17.—Gen. E. S. Bragg, who continues to be in excellent health, and who finds his chief recreation in literature, after a hard day's work in court, said last evening that he couldn't see where Bryan gets his consolation from the recent elections in the several states. Furthermore, he doesn't consider the result as materially bearing upon national issues, except as it may silence some of the loudest critics of President McKinley's policy in the Philippines.

Referring to the war in the Philippines, Gen. Bragg said: "We have got to whip those fellows and establish a protectorate. I did not agree with the administration in its position in those islands at the start, but after the war was begun I was not in favor of quitting. And no man of sound sense will say otherwise."

ROLLINGER IS HANGED

Wife Murderer One of the Coolest Men That Ever Mounted the Scaffold.

Chicago, Nov. 17.—[Special Telegram]—Emil Rollinger was hanged here at noon for the murder of his wife Theresa last December. Cook county officials say he was one of the coolest men ever executed.

Chicago, Nov. 17.—The last faint hope Michael Emil Rollinger, the alleged murderer of Mrs. Merry, had of escaping death on the gallows today vanished last evening, when Governor Tanner announced decisively that he would grant no further stay of execution.

"I swear I am innocent," said Michael Emil Rollinger last night, as he slapped his brawny breast by way of emphasis. "I swear it before all of you," repeated the condemned wife murderer, waving his hand toward his guards, Jailer Whitman, and a reporter.

"But tomorrow I must suffer—must die for a crime I did not commit. I don't care for myself. But the blow will kill my poor old mother in Austria. It will be an everlasting disgrace to my two children. And I am innocent—I tell you, men. Believe me, it is the truth."

Rollinger held out his hands imploringly. Tears filled his large blue eyes. Jailer Whitman advanced to the side of the prisoner and said, soothingly: "Well, Emil, don't give way to your feelings. It is useless to get excited over the matter."

Rollinger sat down, striking the table with his two big fists. For several seconds the condemned man sat in an attitude of despair. Then he straightened up and began to talk of his case.

Day Laborer in Chicago Kills Two of His Children and Shoots Himself.

Chicago, Nov. 16.—[Special Telegram]—Cornelius Corcoran, a day laborer, this morning shot and fatally wounded three of his children; killed one and then shot himself.

The tragedy took place in the family home. Corcoran was doubtless insane. Last Tuesday he gave the children laudanum so that a removal to the hospital was necessary.

Timothy died Wednesday but the others recovered. Corcoran convinced the police that he had given them poison by mistake for a cough medicine. Today he used the pistol just after the children's grandmother had come to dress them for Timothy's funeral.

The dead are Cornelius Corcoran; Margaret, aged five. Wounded fatally: Lizzie, four years, John seven years and Kate fourteen years.

Crescent, Ill., Nov. 17.—By the falling of an aerolite seven miles south of Crescent City the residence of John Meyers was partially wrecked and the neighborhood was panic-stricken. The meteor came from a point in the sky a little east of south and struck the north end of the house, tearing away a part of the upper story. The aerolite buried itself in the ground about three feet from the foundation of the house. The neighborhood is largely settled by German farmers, and many were badly frightened by the visitation.

Voting Machines a Success.

New York, Nov. 17.—Voting machines were used in seven cities and towns of New York last week, and everywhere they won high praise for speed and accuracy. It was found that the machines were not entirely proof against fraud.

AMUSEMENT NOTES.

"At Gay Concy Island" which comes to the Myers Grand this evening is one of the best attractions of its class now before the public and with its wealth of beautiful scenery, handsome and shape ly young ladies, all the latest music, it will provide an evening's entertainment worth going miles to see.

The Modjeska repertoire this season is of a very pleasing variety and will enable the famous actress to display her matchless talent both in comedy and tragedy. The comedies are respectively Shakespeare's "Much Ado About Nothing" and an adaptation of "The Ladies' Battle" a light comedy, and one of the most popular of the modern French classics. The rest are tragedies viz. "Macbeth," "Mary Stuart" and an entirely new play based on the eventful life of "Marie Antoinette" the last queen of France. For each of these plays Manager John C. Fisher has built artistic and elaborate scenic productions. With the acquisition of the well known actor, Mr. John E. Kellard as leading man, who divides the principal roles with Madame Modjeska, a notable performance may indeed be anticipated. In selecting "Macbeth" the management is sure of an overflowing house.

METEORS SEEN FROM BALLOON

At Height of 1,000 Meters Leonids of First Magnitude Sighted

Paris, Nov. 17.—M. Camille Flammarion writes to the Paris Herald and says:

"As I had calculated, the shower of shooting stars was not very abundant. The meteors had become dispersed along the whole length of their trajectory."

"Instead of the hundreds of thousands observed in 1779 and 1832, it has not been possible to register even a thousand."

"The balloon ascents were very successful. M. Jansen, director of the Meudon observatory, who conceived this ingenious idea, has just telegraphed me as follows:

"Rihokoff's ascent made in absolutely clear sky; reached a height of 1,000 meters. One hundred Leonids, twenty of which were of the first magnitude, were observed from the balloon."

EXCESS OF EARNINGS OVER THE EXPENSES

ANNUAL REPORT ON ROCK COUNTY INSANE ASYLUM.

Trustees Claim the Institution is in Excellent Condition—Brazen Attempt at Burglary Frustrated by Two Ladies—News and Gossip From Milton.

THRGAZETTE AGENCY
W. W. CLARKE, Manager.
Milton, Wis., Nov. 17, 1899.

The annual report of the trustees of the Rock County Insane Asylum for the current year shows an excess of earnings over expenses of nearly five thousand dollars. This speaks well for the management of the institution and the board of trustees and superintendent are to be congratulated as well as the taxpayers. This desirable condition of affairs is not due, we are glad to say, to any attempt on the part of the officials to skim the inmates in food or of neglect in their proper care. Advocates of a return to the obsolete system of township care of the poor will not find in the report any argument for their view of the question.

A brazen attempt at a burglary was partially frustrated by the Vincent sisters Wednesday evening. They returned from prayer meeting a few minutes before 9 o'clock, and as they reached the house two men ran away. An examination showed that an entrance had been effected through the outside cellar way, the bolt on the door entering the living rooms having been forced off, and the outside door opened to give the thieves a chance to get away in a hurry. Nothing was taken, as the rascals were frightened away by the home coming of the Misses Vincent. The early hour at which the house was entered, and other circumstances would indicate that the attempt was made by some one acquainted with the premises. The two men were met at the door by the ladies who asked them "What does this mean?" and they replied, "We were just going across your lot." Two pocket books are missing but they contained but a few cents.

JAPAN DOES NOT WANT WAR

Denial of Government Officials of the Current Rumors

Shanghai, Nov. 17.—A correspondent has just returned from a trip through Japan and China, where he went to investigate the rumors of a possible rupture between Russia and Japan—rumors which have been mysteriously and persistently circulated for some time, and which have finally found their way into print through English channels.

It can be stated authoritatively that these rumors of an approaching war find no corroboration among Japanese officials.

In fact, the Japanese officials show the fallacy of such rumors by pointing out that Japan is in no position to go to war, even if she had the disposition to do so, owing to the condition of her navy. The new battleships and cruisers now building for Japan are from being completed, and Japanese officials cited this fact to substantiate their statement that Japan would not be likely to declare war with a foreign power under such conditions.

Chamberlain's Pain Balm Cures Others, Why Not You?

My wife has been using Chamberlain's Pain Balm, with good results, for a lame shoulder that has pained her continually for nine years. We have tried all kinds of medicines and doctors without receiving any benefit from any of them. One day we saw an advertisement of this medicine and thought of trying it, which we did with the best of satisfaction. She has used only one bottle and her shoulder is almost well.

Munsing Plated Underwear...

IT'S ON TOP...

We have sold this well known Underwear for several years and the sale of it is constantly increasing.

The "Munsing" is made in such a way that the worsted appears on both surfaces, the lisle being completely covered, hence the word "plated."

This plating process which is peculiar to the Munsing Underwear, produces a fabric having the feeling of wool and the durability of cotton, and of so fine a texture that persons with the most sensitive skins can wear it without irritation.

People who cannot wear all-wool underwear find the "Munsing" just the thing. We have Women's

Vests and Pants at 50c, 75c, \$1.00, \$1.25 and \$1.50. Union Suits at \$1.00, \$1.50, \$1.75 \$2.50 and \$3.00. Misses' Vests and Pants, 50 cents—Suits, \$1.00.

TITLED SOLDIERS FACE THE BOERS.

England Has Sent Her Proudest Nobles to Fight In the Transvaal—Queen's Grandson Among Them.

BY ANDREW DOWNS.

The best blood of England has been sent to South Africa. Some of it may be shed before the Boers are beaten. Many noble families, from that of Queen Victoria herself, down to those of minor peers of the realm, are represented at the front. Lords, earls, dukes and knights of long lineage are leading the imperial troops in battle against the democratic burghers of the Transvaal.

The queen's own grandson, the dashing young Prince Christian Victor of Schleswig-Holstein, is off again to the wars, having accepted a staff appointment. The Duke of Connaught, the queen's third son, was anxious to go

THE DUKE OF CONNAUGHT.
[Queen Victoria's third son.]

and might have done so had it not been for the firm opposition of that grim old bulldog, Sir Redvers Buller.

The duke first applied to the general for a place, and Sir Redvers politely refused, at the same time urging him to give up the project.

But the duke was in earnest. He went to his imperial mother and prevailed upon her to ask Sir Redvers. Most men would have yielded at this, for the sovereign seldom asks a favor in vain. The general, however, was equal to the occasion.

"Your majesty," he said, "has many gallant officers, but only three sons. Keep them at home."

Victoria was silenced by this argument and told the duke that it could not be. That is why the brother of the Prince of Wales is not at the front, a mark for Boer sharpshooters.

Years ago the pet troops of London, known as the Household brigade, lived up to their name. They spent their time between Windsor and Westminster and were seldom if ever called upon for active service. Their titled officers were the pampered darlings of society, carpet knights who were more at home in the drawing room than in the camp.

But this has all been changed. Most of the noble officers who hold commissions in the imperial army are real soldiers, and many of them have led their regiments in action on bloody fields. In the recent expeditions up the Nile the crack corps have borne their fair share in the campaigning, and in a number of instances the bluest blood of England has been shed in the service of the queen.

Prince Christian Victor earned for himself much military credit during the latest Nile campaign, and there would be much mourning in England if a Boer should "pot" him. Prince Francis of Teck, the Duchess of York's brother, is also on his way to the front with his regiment, the First Royal dragoons.

Lord Edward Cecil, the soldier son of the Marquis of Salisbury, England's premier, has been in the thickest of the fighting, having been with Colonel

PRINCE CHRISTIAN VICTOR.
[Queen Victoria's grandson.]

Raden-Powell. Lord Cecil is entitled to be called a veteran, for he was an aid-de-camp of Kitchener at Omdurman and has already had his baptism of fire.

The Duke of Buccleuch, one of the richest noblemen in Great Britain, owning 400,000 acres, has sent a son, and the family is further represented by Lord George Scott, who married one of the duke's daughters.

Lord William Bentinck, brother of the Duke of Portland, is going, as is a son of Lord Derby. A brother of Lord Revelstoke, who is a director of the Bank of England, is a member of the

First battalion of Scots guards, which is commanded by Colonel Arthur Paget, whose wife is a daughter of the late Lord Rivers of New York.

The demands of the service have even interfered with the honeymoon plans of the daughter of the immensely wealthy Lord Rothschild. She was married but a few weeks ago to Lieutenant Clive Behrens of the Royal artillery, who is now under marching orders. Lord Lansdowne, Lord Durham and Lord Beauchamp also have sons or brothers who are going out to fight the Boers.

Lord Lansdowne, the secretary for war, has two sons in regiments under orders—the Earl of Kerry, his heir, who is a lieutenant in the Grenadier guards, and Lord Charles Fitzmaurice, a lieutenant in the First dragoons.

The Tenth Hussars, known as the "Prince of Wales' Own Royal," and the officers form perhaps the most exclusive set in the army, as they include, besides those named, the Hon. E. Baring of Lord Revelstoke's family, the well known banking house; the Hon. T. W. Brand, Viscount Hampden's heir presumptive; the Earl of Shaftesbury, the Hon. D. Anderson-Pelham and the Hon. G. B. Portman.

The Earl of Derby's youngest son is a lieutenant in the same regiment. His father, when known as Lord Stanley, was governor general of Canada from 1883 to 1893, and his uncle, the late Lord Derby, was the minister of rather a cross bench turn of mind, but of reputed common sense, whose omission to define the rights of suzerainty in the convention of 1884 has been seized upon by the Transvaal government as the recognition of the complete independence of the republic in its external as well as its internal relations. Viscount Downe's heir, the Hon. J. Darnley, is now the adjutant of the "Prince of Wales' Own," and the Duchess of Portland's brother, Mr. Dallas Yorke, is a junior officer of the same corps.

Another "dandy" regiment which is already at the front is the Ninth lancers, the Queen's royal, and this again numbers among its officers representatives of many families in the peerage and

MAJOR LORD EDWARD CECIL.
[Premier Salisbury's son.]

the equally influential county families not possessing a title, but whose estates have been handed down for generations in unbroken succession.

The colonel, Major General Sir William Drysdale, is to have command of a division, and Lieutenant Colonel Bloomfield Gough is marked out for a high command.

The Hon. C. H. C. Willoughby, Lord Douglas Compton, a brother of the Marquis of Northampton, and a son of the Marquis of Dufferin, Lord Frederick Temple Blackwood, are younger sons of peers or peeresses.

Few English officers will draw to themselves a greater interest on this side of the Atlantic than will Sir Edward Clive, who will act as transport officer in Natal. His home coming, after an eventful commission on the China station, preceded that of Admiral Dewey by only a short period, and his speedy reappointment signified the approval of the British admiralty of his action at Manila during the fighting, when he made fast friends among the officers of the sister navy. A Devon man, like Buller, with his seat at Barnstaple, this sixth baronet of Raleigh has followed out the instincts of his race at sea.

A more typical instance of a society soldier is that of Sir F. Forestier Walker, the guardsman who has been sent out as general at the Cape Town base. Charming manners have made him one of the chief favorites of social life, and good fortune in the things of this life has aided his rapid promotion, though he has so far no claim to high military reputation.

With this imposing list of English nobles more or less exposed to the crack marksmanship of the Boers you may be sure that the war bulletins are being just as anxiously scanned in the palaces of Mayfair as in the humblest cottage in the land. The well known habit of the Boers in picking off the officers first does not tend to calm the anxieties of those left at home. But in sending her titled soldiers to the front England has shown herself to be terribly in earnest this time, and the Boers may be sure that each time they pick off a lord or a duke they are sealing their fate more securely.

THREATENS MARTIAL LAW.

Spanish Premier Says the Government Will Have No Nonsense.

Madrid, Nov. 17.—"The situation at Barcelona," said Premier Silvela in a cabinet council, "is intolerable, and the government will suffer no nonsense either on the part of Catalans who refuse to pay their just taxes or on the part of officers and members of chambers of commerce who are fomenting dissension relative to the state finances. "These disturbers stand on perilous ground," Senor Silvela continued, "for their endeavors are directed, not against the government, but against the state." The premier declares that the government will maintain martial law just as long as seems necessary.

Barcelona, Nov. 17.—The central government is determined to have its taxes, which so many citizens of Barcelona refuse to pay. A large number of recalcitrant rate-payers have been imprisoned, but released on the understanding that they are on parole. The government grants forty-eight hours' respite. Unless at the end of that time all taxes are forthcoming, harsher measures are promised.

A YOUNG MAN'S SUCCESS.

How He Secured Happiness—Hope for Others.

Three years ago I was a wreck of manhood, without ambition, energy or hope. I was a victim of secret vice and the fearful results of the vile habit which so often robs men of manhood and health, renders life a burden. Business a failure and marriage a disappointment. I was weak, tired, languid, despondent and nervous, together with other symptoms of that disease of horror. I felt that my life was blighted and robbed of all that makes life worth living. My wife, whom I loved fondly, almost secretly, and whose love was my inspiration to me to achieve the most of my opportunities, had changed in a year from a cheerful, hopeful, light-hearted, happy girl, became discouraged, dissatisfied and careless; disappointed and unattractive were pictured on her countenance.

I was conscious that my crime against nature, although done in ignorance and through weakness, was the cause of all my trouble, and I felt like a criminal in hiding, fearing discovery. I was in despair, and often wished the cord of life might be broken and I be released from a bondage which was worse than death.

To-day I am well and happy, restored to perfect health and vigorous manhood, relieved of all the effects of disease, and experience joys and happiness that I had never before known.

My wife has experienced as great a change of life as I. She is happy and light-hearted as of yore and our home is now a scene of peace and joy. I am a perfect picture of health, and when he plays about his mother's knee I think of the hours of love, and health and happiness restored; and my wife is now a grateful thankful girl to the giver of all good things that, with restored health, I can again enjoy the greatest pleasures of life, the most exquisite of joys, the sweetest of embraces, such as I believe few men have experienced.

When a man has suffered for many years with a weakness that hinders his life, and robs him of all that really makes life worth living, when after years of doctoring with all sorts of advertised remedies and self-styled specialists, he finds no cure, that brings back the health and energy that seemed lost forever, he naturally wants his fellow man to know about it and to lift out of bondage the thousands of young, middle-aged, single and married men who are tormented by a shattered nervous system as I did. It is for them that I tell this story. While suffering as above, I was advised by Rev. H. P. Johnson to consult Dr. N. B. Wood, the celebrated Chicago Specialist. I did so, and he restored me to health and happiness which I would not part with for the wealth of the world. I have asked him to publish this letter for the benefit of others who should seek a cure before it is too late.

I am gratefully yours,
GEO. A. GOODWIN,
748 Madison St., Chicago, Ill.

JANESVILLE IS PROSPERING

Janesville people are receiving their share of the benefits of the renewed prosperity. Every man who wants a job has it, or can get it. Laborers have been paid as high as \$2 a day, and it is difficult to find a man to do a day's work. Contractors and builders are rushed with business, and cannot hire enough mechanics to meet the demands made upon them. Merchants have all the orders they can handle, and on all sides trade is increasing. There are no evidences of a future decline, and the Bower City and its people are prosperous, happy and contented. It is not necessary to refer to the causes of this great change. The people are quick to note causes and effects. The republican party promised to accomplish just what has been accomplished, and due credit has been bestowed where it belongs.

The contrast between these busy days and free soup times of a few years ago is marked, but with no class of people is the change more appreciated than by those who work for a living.

Before the last presidential election, many of them were dependent upon charity. Today they are employed at good wages, and if they do not like their job they can find another at once.

The merchant who saw his business dwindle down to nothing during the recent hard times, suffered much, but the working man who fought absolute starvation suffered more. Hence, while everyone receives a share of the benefits of prosperity, the workingman is the greatest gainer, for when he is out of employment he is also out of bread.

Up to the hour of going to press none of the democratic papers that are now making a specialty of anti-trust talk here succeeded in elucidating the facts concerning the coal trust, the sugar trust, the standard oil trust, or any of the other trusts that lived despite the democratic administration and policies.

The Beloit News appears to be decidedly anxious to believe that Janesville people speak sarcastically of the Line City. Such is not the case. Janesville people have the kindest feelings for Beloit and are glad to note her progress and growth.

Attorney Gilbert E. Roe, Robert M. La Follette's professional associate, has gone to New York, where he will practice law. Mr. Roe has been prominent in legal and political circles, and has many friends who will wish him success in his new field.

Free trade England supports more trusts than any other country on the face of the globe. Will some of our trust bating and tariff condemning democratic friends account for this fact?

A Michigan county clerk has run out of deer hunters' licenses, having issued 1023. The number of hunters and also the number of deer is decreasing every day, however.

The general impression seems to be that the people would not have bought that house if they had known that the admiral proposed to give it away.

TO REPAIR FIRST METHODIST

Local Church Members Raise Much Cash to Be Expended

Improvements that will cost \$350 are now under way at the First Methodist church, corner of Jackson and Center streets. Rev. W. W. Woodside raised most of the necessary cash last Sunday during service, in twenty minutes' time. Church members responded most liberally.

The improvements will include a newly arranged front step entrance that will be placed within the walls of the church the same as is now in the Congregational church. Improvements will be made in the windows and new cushions will be placed throughout the church. Painters will also add a new coat of paint on the outside, the color to be light, to correspond with the brick of the new addition.

The stone foundation is also being strengthened. First Methodist church members do nothing by halves, and the improvements will add much to the beauty of their edifice.

TO BURY THE HATCHET

National and Non-Partisan W. C. T. U. Hold a Conference and Agree to Unite.

Cleveland, O., Nov. 17.—A conference of international importance was held this afternoon the result of which will probably be a reconciliation between the National Woman's Christian Temperance Union and the Non-Partisan Woman's Christian Temperance Union within a few months.

Mrs. L. M. Stevens, National president of the W. C. T. U.; Mrs. Howard M. Ingham, National president of the Non-Partisan W. C. T. U.; Miss Anna Gordon, vice-president at large of the W. C. T. U.; Miss Mary E. Ingersoll, president of the Ohio Non-Partisan W. C. T. U., and other officers of both organizations and members of commissions named by each to consider burying the hatchet were present. The following resolution was unanimously adopted:

"Resolved, That this commission representing the Non-Partisan Ohio W. C. T. U. and the Ohio W. C. T. U. conventions, recommend to their respective State and National executive committees the consummation of an organic union, provided a satisfactory basis for such union can be agreed upon, that we may better carry forward the work manifestly laid upon us by our Master."

Among the many noted newspaper correspondents sent to Rennes to report the Dreyfus case was Mrs. Emily Crawford, an English woman journalist.

A Fat Red Bantam

A letter in a Glasgow paper records a phenomenon much too remarkable to be reserved for Scottish consumption. The writer says: "An acquaintance of mine, who lives up north, has among others of the feathered tribe a little bantam cock. A few weeks ago he noticed that it was looking the worse for a slight difference of opinion with a canine friend, but did not examine it closely till his mother's and sister's vociferations brought him in a hurry. There was the bantam picking away at corn, but the corn was dropping from a rent in the bird's chest just as fast as it was lifted. Not wanting to kill the bird, my friend got a needle and some horsehair and stitched up the tear, with the result that the bird now is as good as new."

Growth of Holland.

It is a curious country over which Wilhelmina, the girl queen, reigns. Eight hundred years ago less than 600 square miles of Holland were beyond the reach of the tides. During these eight centuries 12,000 square miles of land have been "taken" from the ocean by dikes and drainage, and now, at a cost of about \$5,000,000, a part of the Zuyder Zee is to be drained and no less than 800 square miles added to Holland's present territory.

Cure for the Cigarette Habit.

The following cure for the cigarette habit has been suggested by a correspondent of Plaquemine, La.: Supply yourself with a few sticks of ordinary licorice bought of a druggist and break it up into pieces about the size of a cough drop and keep them in a small box in the pocket instead of cigarettes, and whenever you desire to smoke take one of these drops instead. Follow these directions for four or five weeks and you can rest assured you will not have any more desire to smoke.

Funston's Pen in Demand.

General Fred Funston is already overwhelmed with offers of large sums for magazine articles, and as he is a man of no mean literary ability, it is probable that his description of the Philippine campaign would prove to be deeply interesting. The most remarkable proposition which has been made to the gallant Kansan, however, is of a very different character, and originated with the managers of a street fair which is to be held in Wichita. They have offered him and his swimming comrades \$1,000 to repeat their river-fording achievement there in October. The plan is to fortify the Little Arkansas river and have General Funston and his men swim across, attack and take the fortifications.

SOULMAN AND BAINES THE PURCHASERS.

Frank Baines Said to Have Secured Several Hundred Cases Near Stoughton—John Souلمان is Said to be Losing No Sleep These Days—Other Deals Are Now Pending.

Old goods continue to sell freely in the eastern markets and local packers are also enjoying a liberal trade. C. L. Culton reports the sale of 700 cases during the week. Frank Baines received several hundred cases of '98 from growers about Stoughton. John Souلمان bought 150 cases and disposed of about 100 cases since last report.

The week has brought ideal casing weather and growers have been afforded a chance to get down as much of their hanging leaf as they like in excellent condition, says the Wisconsin Tobacco Reporter.

Stripping can now proceed and very likely some early deliveries will be effected.

The shipments out of Edgerton this week are among the largest of the season, indicating very extensive movements of Wisconsin leaf in the eastern markets. T. B. Earle has orders placed for 208 cars to be loaded from the Bamberger storehouses as fast as cars arrive, with goods consigned to the American Tobacco company at their manufacturing points. A total of 25390s or about 55 cars have been forwarded to all points from this market. Since last report 588cs of cigar leaf were exported from New York.

Rich's Lead Is Increased.

Omaha, Neb., Nov. 17.—The fusionists are recovering somewhat from their alarm, induced by the official returns which showed that Edson B. Rich, democratic candidate for regent, was running so far behind his ticket that he was in danger of being overhauled by Ely, his foremost republican competitor. A total of seventy-six of the ninety counties have officially recorded their returns and the lead of Rich is increased to 1,200, far less, however, than was anticipated.

Illinois Law to Be Tested.

Chicago, Nov. 17.—The constitutionality of the Illinois law, requiring from officers of corporations an anti-trust affidavit is about to be tested at the instigation of the Illinois Manufacturers' association. Moran, Kraus & Mayer, counsel for the association, will take steps to that end at once. The law is said to be so broad that a corporation would have to go out of business if it complied with it. Many corporations have refused to comply with the law.

Action in Canal Project.

Rockford, Ill., Nov. 17.—The movement to convert Rock river into a canal between Rockford and Sterling has progressed so far that a convention has been called for this city Thursday, Nov. 23, at which time steps will be taken to formally present the project to congress. CONDUCTORS' PARTY HELD LAST EVENING

PROVED DELIGHTFUL SOCIAL FUNCTION.

Seventy-five Couple Were Present—Hall Was Tastefully Decorated With Flowers and Bunting—Mistake Was Made by Arrangement Committee in Issuing Invitations.

Owing to a mistake in issuing the invitations there was not the usual large crowd at the fifteenth annual dancing party held at the Armory last evening by the Bower City Division No. 118, Order of Railway Conductors. The committee with whom the work was left sent out invitations from a list that was several years old and which contained, but few of the names of the dance loving public.

Not having received invitations many did not attend who would have been on hand had they been invited. But it was all a mistake. No organization ever held a dance in Janesville, who were more ready to extend the hand of fellowship to all respectable persons than the Conductors and their mistake of last evening can easily be overlooked.

But the ball of last evening was a success just the same and a most delightful function it proved to be. The hall was decorated in its usual attractive style which is always a specialty with the Conductors. The walls were draped with red, white and green, which are railroad colors. From the center chandelier was draped long streamers of red, white and green, which found their way across the entire hall. The northwest corner was made cozy and inviting by a liberal supply of rugs, easy chairs and furniture.

Prof. Johnny Smith and his orchestra of eight pieces were stationed at the west side of the hall. The orchestra stand was beautified by a liberal supply of palms, potted plants and cut flowers. The entire floral work was in the hands of Misses Long and Hodgson of the Linn Street green house and that they did themselves proud was the opinion of all present. As floral decorators the enterprising firm is to be congratulated.

About seventy-five couple were present and with plenty of room the dancers enjoyed an excellent time till the 2 o'clock hour. Several were in attendance from out of the city. Many familiar faces were missing last evening among the railroad men owing to the death angel having invaded the ranks since the giving of the party a year ago. Supper was served at the hotel Myers.

The program committee consisted of Messrs and Mesdames—

C. J. Mahoney, J. J. Dulin, N. Dunaway, N. Erickson, C. O. McCormick, E. A. Ostrander, G. H. Johnson, J. W. Hodgins, W. H. Butler, J. H. Bead, J. H. Burns, J. C. Quirk, E. L. Hunter, T. J. McCormick, M. C. Simons, W. D. Castillon, Thomas Butler, George Lindsey.

The arrangement committee consisted of F. D. Sughrue, G. H. Devins, James York, G. H. Hollis and J. B. Callahan.

Those who had charge of the floor were C. P. Mooney, chief; C. F. Ring, M. O'Brien, E. J. Carr, J. A. Johnson. Among those present from out of the city were Mr. and Mrs. L. M. Thomas, Chicago; Dr. and Mrs. Johnson, Miss Lizzie Logue, Harvard, Ill.; Mr. and Mrs. R. L. Burnett, Chicago; Mr. and Mrs. Frank Peachin, Milwaukee; Superintendent T. A. Lawson and Mr. O'Brien of Chicago.

RUSSIA IS UP TO SOMETHING

Russian Warship Gathering in the Persian Gulf.

London, Nov. 17, 8 a. m.—In spite of the reassuring denials of the reports that Russia and Japan are on the verge of war, and that Russia is liable to stir up the British lion by the occupation of Herat or Kashgar, the events of the last few days strongly indicate that Russia is at least up to something.

The Daily Mail's Bombay special announces that a Russian warship has just passed Aden, enroute to the Persian Gulf and that the British cruiser Pomone has since been ordered to follow.

This movement certainly has not the most peaceful aspect, and the Pomone is not the only boat England has in the neighborhood, either.

CHESTNUT PUDDING.—Bake or boil 50 fine chestnuts, rub their pulp through a sieve and place this in a stewpan with a pint of cream, four ounces of butter, six ounces of sugar, a pointed stick of vanilla and a very little salt. Stir these ingredients over a stove fire until the preparation thickens and then quiten the motion of the spoon so as to prevent the mixture adhering to the bottom of the stewpan. As soon as it leaves the sides of the stewpan remove it from the fire, add six yolks and the whites of six eggs whipped firm; pour the pudding mixture into a plain bowl, previously spread with butter, and then strain it, and let it stand for an hour and a half. When the pudding is done, turn it carefully out of the mold on to its dish, pour over it some warm apricot jam diluted and serve.

USES DYNAMITE TO FRIGHTEN WIFE

FREDERICK O'BRIEN ARRESTED THIS MORNING.

Damage to His Humble Home Will Not Exceed Five Dollars—Affair Not So Shocking as Some Might Think—Merely Another Case of Too Much Whisky.

Frederick O'Brien at 2 o'clock this morning placed a half pound stick of dynamite on the door sill of his own story residence, corner of Western avenue and Academy street and then lighted the fuse. A terrific explosion followed but there was more noise than damage.

A board off the door, a hole in the sill and the breaking of a dozen window lights is the extent of the damage and a five dollar bill will more than cover the loss. O'Brien committed the act while intoxicated and says that he did it just to frighten his wife who refuses to live with him when he is drunk.

At 9 o'clock this morning Chief of Police Hogan arrested O'Brien and placed him in jail. He admits his guilt and says that two other men went with him when he committed the act.

Family trouble is at the bottom of the whole affair. Mrs. O'Brien stated this morning that for some time past she and her husband have had trouble and it has all been the result of too much booze on O'Brien's part. He would come home intoxicated and ill treat her and her child.

Yesterday afternoon Mrs. O'Brien made complaint to Officer John Brown saying that she feared violence from her husband. Last evening O'Brien went home and threatened his wife. At 11 o'clock he returned and again made threats. At the O'Brien home were Mr. and Mrs. Frank O'Brien and their two small children and Mrs. Frederick O'Brien and her two year old son.

It is alleged that O'Brien then told his uncle Frank O'Brien that he had better not sleep during the night if he valued his life any. When the explosion took place the three children and the three adults were sleeping in the two small bed rooms in the front part of the house. None were injured.

Last evening O'Brien purchased the dynamite at the Frank Pierson store on North Main street. He said he wanted it to blow up a large rock on a farm. The prisoner now says that he regrets his act and was badly under the influence of liquor when he committed the deed.

Mr. Pierson says that O'Brien was not intoxicated when he purchased the explosive. The O'Brien home is a one story shack valued at about \$100.

Mr. O'Brien is about twenty-eight years of age and has been a teamster and general laborer.

This morning O'Brien was brought into the municipal court and waived examination to the charge of assault with intent to kill. In default of \$1000 bail he went to jail. His trial is set for Nov. 29 at 10 o'clock.

TWENTY-FIVE FOOT FALL THIS MORNING.

Groveland Horn Luckily Escaped Injury—Outfit Belonged to E. J. Kent & Company—Fortunate Accident—Places That the City is Held Responsible For.

When Groveland Horn, drove to the end of Lincoln street this morning at 10 o'clock for the purpose of dumping a load of rubbish off the high Western avenue embankment, little did he suspect an accident that came near costing him his life.

Mr. Horn is the son of Charles Horn and is a bright youth of about fifteen years. He is employed by the local paint firm of E. J. Kent & Company. This morning he drove to the end of Lincoln street and on reaching Western avenue turned his horse about and backed the loaded wagon to the edge of the high embankment which is twenty-five feet steep at this point. Instead of remaining on the seat the boy took the horse by the head. It is to this fact that he no doubt owes his life.

The animal for some reason had the backing fever for when he started to back he never stopped till horse and wagon fell down the bank in a heap twenty-five feet below. Tin cans, glass bottles and every kind of rubbish served as a resting place for the outfit. Mr. Horn lost no time in summoning aid and he bravely made his way down the steep incline where he set to work to free the badly frightened animal who was a helpless mass beneath the broken wagon.

Landlord Fred Jones of the Hotel London was riding past on his wheel at the time and he so on came to the rescue. Frank Hager and Mr. Geeser were also able assistants.

The outfit was finally brought to the top with the aid of a team of horses. The wagon and harness were damaged and the horse escaped with slight injury. The location where the accident took place is a most dangerous one and many think that the city would be held liable in case of a serious accident.

ARMENIANS ATTACK KURDS

Bloody War Has Again Broken Out Near Erzeroum

Frankfort on the Main, Nov. 17.—The Zeitung today received a message from Dr. Belck, at Erzeroum, stating that Armenian insurgent bands traversed the plain of Alasagert Nov. 7. At noon of the same day numerous shots were heard at the Armenian village of Nomanzug.

Dr. Belck suspected an attack by the Kurds, and prepared to leave with a military escort, but the Armenian peasants falsely reported that the Kurds were simply celebrating a wedding.

It was learned later that a band of sixty insurgents had attacked the Kurd peasants.

This band was half of a party which started toward the Russian boundary, intending to march to Musch and the mountains of Talori, south of Musch, and there proclaim their leader, Seko, king.

EXPRESS COMPANIES WILL GO IT ALONE

TWO OFFICES COMMENCING WITH NEXT WEEK.

United States Will Occupy Their Former Stand in the Wilcox Block—Claim That They Were Not Benefitted by Being Consolidated But Were Getting the Worst of it.

Next Friday the consolidation of the American and United States Express companies in the city of Janesville will be a thing of the past. The United States company claim that they have not been benefitted any by the change but on the other hand have been the losers by a goodly sum.

This does not apply to Janesville but is in reference to other towns throughout the state of Wisconsin. The change had to be made in every city it made in one and that is why Janesville is soon to have two competing companies.

Next Friday the United States company open an office in their former quarters in the Wilcox block on East Milwaukee street. Route Agent James R. Botsford of the United States company stated this morning that as yet no agent had been decided on to preside over the local office. Edward J. Bennett, for a number of years driver for the American and United States companies in Janesville has been employed by the United States company to fill his former position. No more competent man ever filled this position and the United States company are fortunate in being able to secure his services.

James E. Botsford will probably have charge of the other wagon. For the American company Charles P. McLean will remain in charge as agent. Volney D. Atwood, who has been billing clerk in the local office has received a well merited promotion. He will have charge of an express run between Janesville and Harvard during the greater portion of the day. He will also work in the local office.

James Milford will continue in the capacity of driver for the American company as will Joseph Murray. In behalf of the American company the following officials were here this week: Superintendent S. S. McDuffie, Milwaukee; General Superintendent W. A. Naylor, St. Paul and Route Agent S. F. Wescott of Appleton.

LATE NEWS BY TELEGRAPH.

STILL LOOK FOR AGUINALDO.

Rebel Chief Is Now Said to Be at Urdaneta.

INSURGENTS DEMORALIZED.

The Rapid Movements of American Troops Have Spread Dismay—Gen. Young's Cavalry Do Good Work—Major Logan's Body Buried.

Manila, Nov. 17.—Aguinaldo's whereabouts are still the all-absorbing question. No one knows whether he is now in the Dagupan valley or whether he has escaped northward through the gap between Gen. Wheaton and Gen. Young. Two days ago what appeared to be an authentic report reached the headquarters here that the rebel leader was at Urdaneta, toward which town the Americans are now converging.

Gen. Young has reached Tayag and San Nicholas, which is some distance northwest of Humungan. The last reports show that Wheaton has made little or no advance from San Jacinto, so that there is a wide gap left, through which Aguinaldo may slip on his way to the northern provinces.

Gen. MacArthur is still at Tarlac. He has reconnoitered as far north as Gerona. His progress has been retarded by the terrific rainstorms during the last week, which have rendered the roads impassable and have swollen the streams so that it is impossible to cross them without boats. This weather is considered abnormal for November.

The signal corps has found it impossible to keep up communication with Gen. MacArthur's troops. The movement of supplies is very difficult and the cavalry is exhausted.

Natives Taken by Surprise.

Manila, Nov. 17.—A correspondent of the Associated Press telegraphs an account of the rapid pace with which Gen. Young covered the road with his cavalry. The Macabebes scouts completely surprised and demoralized the insurgents around the low country. A messenger and re-enforcements who were captured say no town from San Jose to San Nicolas expected the arrival of the Americans until a day or two after they actually arrived.

Aguinaldo and his government are said to be making desperate efforts to escape to Bayombong. All the information here is that he is still in the low country.

Col. Wessels captured at Tayag several hundred thousand pounds of rice, 7,500 pounds of salt, 1,500 pounds of flour marked "Dayton, O.," 2,500 pounds of sugar, 1,300 new uniforms and hundreds of thousands of Mauser shells.

The names of Lieut. Gilmore and seven of his men were found written on the walls of the convent of San Quentin. The garrisons of all the towns surprised resisted feebly. Gen. Wheaton has not yet appeared.

Logan's Body Is Buried.

Manila, Nov. 17.—The body of Major John A. Logan, who was killed Saturday at San Jacinto, was buried Thursday in Paco cemetery. Chaplain Pierce officiated and the pallbearers were the captains of the Twentieth regiment. It was found impossible to send the body home, as intended, owing to the impossibility of embalming it at San Jacinto, and when it reached Manila an immediate burial was necessary. It will be sent to the United States later.

Epidemic of Dengue in Army.

Manila, Nov. 17.—Chief Surgeon Woodhull sends Surgeon-General Sternberg the following: "A sharp and quite general epidemic of dengue has prevailed in Luzon for some months, and it appears to be spreading to the south. There have been few really severe cases, but a large number that interfered with duty for some days."

Would Abolish Insurance Tax.

Des Moines, Iowa, Nov. 17.—In his annual report State Treasurer Herriott recommends the repeal of the law taxing foreign insurance companies. After showing that the receipts from taxation of insurance companies amounted during the biennial period to \$304,468.09, of which \$231,420.77 were paid by companies in the United States outside of Iowa, and \$33,226.70 by foreign companies, the treasurer argues the injustice of the Iowa law in regard to the taxation of foreign companies.

Iowa Delegates in Session.

Mason City, Iowa, Nov. 17.—By three votes Storm Lake won the state dairy convention for 1900. Officers were elected as follows: President, W. K. Boardman, Nevada; vice-president, E. W. Gye, Newell; secretary, J. C. Daif, Charles City; treasurer, E. W. Stetson, Newell. The convention declared itself in favor of the 10-cent tax on oleomargarine.

Death of C. P. Greathouse.

Yokohama, Nov. 1, via Vancouver, B. C., Nov. 17.—C. P. Greathouse, who was consul general of the United States to Kanagawa, Japan, from 1886 to 1889, died at Seoul on Oct. 21. At the time of his death Mr. Greathouse was adviser to the Korean government, a position he had held without interruption during his ten years' residence in Korea.

MAY APPEAL TO LEGISLATURE.

Kentucky Republicans Making Canvass of Democratic Lawmakers.

Frankfort, Ky., Nov. 17.—Taylor's friends have begun a quiet canvass of the members of the legislature, sounding them as to how they would vote on a contest if the state election board should throw out Knox, Johnson or Pulaski counties, and also 1,100 votes cast in Nelson for "W. P." instead of "V. S." Taylor. It is said four democratic members of the house and at least six democratic senators have been found so far who will not vote to seat Goebel. This movement on Taylor's side is construed to indicate the opinion that Goebel will be given a certificate of election from the state board. The story that Goebel has decided to abandon the fight and to enter the race against Blackburn for senator is pronounced absurd by friends of both Goebel and Blackburn.

Four Hundred Shots a Minute.

London, Nov. 17.—In connection with the hostilities in South Africa the war department is awaiting with considerable interest reports as to the operations of the new Colt automatic gun, which, it is supposed, has had its first practical test in actual warfare during the last few weeks. The gun is a novelty in its way, inasmuch as it is self-operating after the first shot has been fired. It consists of a single heavy barrel, weighing about forty pounds, or complete with mountings and cartridges, 114 pounds. It is readily portable and fires a minimum of 400 shots a minute. Other advantages claimed for it are that it gives practically no recoil, and does not need a water-jacket.

Two Bell Company Rivals.

New York, Nov. 17.—After negotiating for more than a week the capitalists who control the Knickerbocker Telephone company and the People's Telephone company in this city, have failed to agree upon a basis of consolidation. A final conference was held yesterday and each corporation decided to go its own way. Indications, therefore, point to three rival telephone companies in this city, and the Bell company is said to be pleased that its opponents did not join forces.

Pilot Blamed for Collision.

New York, Nov. 17.—The local board of United States inspectors of steam vessels has investigated the collision between the Pennsylvania ferryboat Chicago and the coastwise steamship City of Augusta, which occurred on the North river early on the morning of Oct. 31 last and resulted in the sinking of the former and drowning of four or five men. Their report, filed with Supervising Inspector Starbuck, holds that the collision was entirely due to want of care and to negligence on the part of William Durham, pilot in charge of the ferryboat.

Report on the Country's Banks.

Washington, Nov. 17.—The comptroller of the currency has issued a report on banking in the United States during the last ten years. The document is a result of the examination of data gathered from nearly 10,000 banks. It is shown that the resources of the financial institutions are vast, and that the growth of deposit accounts is unparalleled in financial history.

For Governor of Indiana.

Lafayette, Ind., Nov. 17.—James S. Dodge, past commander of the Indiana department, G. A. R., has announced his candidacy for the republican nomination for governor. He will begin his canvass of the state at once. There are now four avowed candidates for the nomination, with the possibility that the number will be increased to fifteen.

Yellow Fever in Florida.

THE WAR CLOUD IN THE EAST.

British Warships Keep a Close Watch on Russia.

LARGE FLEET ORGANIZED.

Indian Government Has Made Full Preparations for Disturbances Which Are Expected at the Death of the Amir of Afghanistan.

London, Nov. 17.—In spite of the reassuring denials of the reports that Russia and Japan are on the verge of war, and that Russia is liable to stir up the British lion by the occupation of Herat or Kashgar, the events of the last few days strongly indicate that Russia is at least up to something.

The Daily Mail's Bombay special announces that a Russian warship has just passed Aden, en route to the Persian gulf, and that the British cruiser Pomone has since been ordered to follow.

This movement certainly has not the most peaceful aspect, and the Pomone is not the only boat Great Britain has in the neighborhood, either. The Melpomene has been in the gulf for several weeks, while the Marathon, Racoon, Pigeon and Sphinx are at Bombay. The Assaye is at Muscat, and a flagship at Trincomalee.

The Daily Mail's Bombay correspondent also states that while the rumor that Russia intends the occupation of Herat is received with calm, real apprehensions of impending trouble in Afghanistan exist nevertheless. The ameer's health is undoubtedly feeble, and the inevitable strife at his death will be a great temptation to Russia to intervene.

This contingency, the correspondent adds, has long been foreseen by the Indian government, which is fully prepared for the emergency.

According to the Russian newspapers 1,000 volunteers are going to the Transvaal next week with many dismissed officers in the ranks. Only forty of the entire thousand are paying their own fares, and where the rest get their funds is not stated. This expedition is exactly on the same lines as that of the Free Cossacks of Atchinnoff sent to Abyssinia and which was unofficially sent and equipped by the Russian government notwithstanding the assurances given to Italy to observe strict neutrality.

Grand Jury Gets to Work.

Lansing, Mich., Nov. 17.—Judge Persons' charge to the grand jury Thursday leaves no doubt that it is the intention of the court and prosecutor to go to the bottom of all stories of corruption of legislators that have been current throughout the state since last winter, and also to carefully look into the circumstances surrounding the expenditure of the war fund of \$500,000, all of which was exhausted in the equipment of the troops Michigan sent to the front last year. The charge was no sooner delivered than the jury got down to active work, the first transaction considered being that which involves an alleged deal to have the state purchase eighty-four sets of the national reporting system.

Sick Women Advised to Seek Advice of Mrs. Pinkham.

[LETTER TO MRS. PINKHAM NO. 94,863]
"I had inflammation and falling of the womb, and inflammation of ovaries, and was in great pain. I took medicine prescribed by a physician, but it did me no good. At last I heard of Lydia E. Pinkham's Vegetable Compound, and after using it faithfully I am thankful to say I am a well woman. I would advise all suffering women to seek advice of Mrs. Pinkham."—Mrs. G. H. CHAPPELL, GRANT PARK, ILL.

"For several years my health was miserable. I suffered the most dreadful pains, and was almost on the verge of insanity. I consulted one of the best physicians in New York, and he pronounced my disease a fibroid tumor, advising an operation without delay, saying that it was my only chance for life. Other doctors prescribed strong and violent medicine, and one said I was incurable, another told me my only salvation was galvanic batteries, which I tried, but nothing relieved me. One day a friend called and begged me to try Lydia E. Pinkham's Vegetable Compound. I began its use and took several bottles. From the very first bottle there was a wonderful change for the better. The tumor has disappeared entirely and my old spirits have returned. I heartily recommend your medicine to all suffering women."—Mrs. VAN CLEEF, 416 SAUNDERS AVE., JERSEY CITY HEIGHTS, N. J.

Of all the fine varieties of Apples grown in this country, the "King of Tompkins County" is the most popular and commands the highest price. This Apple has won for Tompkins County, N. Y., the reputation of being the most famous Apple growing district in the United States. We have a good supply of this celebrated "King" Apple, which we will sell by the barrel at lower prices than they can be bought for at wholesale in Chicago.
